REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: independent claims 1, 21, 32 and their respective dependent claims are allowed because the instant invention recites a clamp for an umbilical cord that requires very specific construction parameters and elements. More specifically, claim 1 requires a first shell and second shell movably connected to each other, a blade on the first shell, a cutting support on the second shell, a clamping member to the first side of the blade and a removable clamping member engageable to both shells; claim 21 requires that the device comprise an arcuate strap, and arcuate clamping surface with a hinge connecting the strap to the clamping surface; and claim 32 requires many specific limitations already stated in claims 1 and 21 with even more detail, as well as, structural limitations that the clamping member be shaped like the face of a koala.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
